ANTGIDA

HISTORICAL HERITAGE

From the Mount Ida, the “Mountain of the Goddess”

Our selection of olives with its unique and superior taste comes from the Mount Ida which is located in the North of Aegean Sea. The mountain is the scene of several legendary events in the mythology. According to Homerus, the famous beauty contest which Hera, Aphrodite and Athena had participated and led to the Trojan War was held in the Mount Ida. The mountain was the sacred place of the Goddess.

Over the years, the olive has been the symbol of peace, wisdom, glory, fertility, power and purity.

This is a way to experience Mount Ida and its mystic taste...

Mediterranean Crunchy Bites

Fora Zeytin, one of the world's leading olive producer brands, presents olive chips prepared with freeze dry technique.

Olives hand-picked on the Mediterranean Riviera are processed in IFS and BRC certified Fora Zeytin AntGida facilities with machines suitable for drying.

Olive chips are rich in polyphenols as all the nutritional values of olives are preserved during the process.

In addition, they are easy to lock and unlock as they are presented in doypack packages.
